A panel and audience discussion

The discussion “Animal Research in Cognitive and Behavioural Science” is an event for experts, researchers and students who encounter animal research in their work. Scientists from different fields whose research involves studies of animals will discuss a set of questions on the panel. Following, the audience is welcome to ask questions and engage in the discussion. We invite everyone with a scientific interest in animal research and/or cognitive and behavioural science to attend the discussion and participate.

Experts on the panel:

Prof. Dr. Stefan Treue,

Director of the German Primate Research Centre,
Göttingen

Prof. Dr. Christa Thöne-Reineke,

Responsible for Animal Welfare, FU Berlin

Dr. Richard Moore,

Philosopher and Cognitive Scientist, HU Berlin

Dr. Mimi Arandjelovic,

Project coordinator of the Pan African Programme,
MPI Leipzig

Date, Time and Location

Monday, 24th April 2017

4 PM – 6 PM

Habelschwerdter Allee 45

Hörsaal 1b
